I'm a valet at a restaurant. I work in the evenings, and I park cars. I work part time, Thursday to Sunday. I work for five hours a night. We are very busy on Friday and Saturday nights because people like to eat out on the weekend. When the restaurant is busy, I park about sixty cars a night. I get a lot of tips. Most drivers give me two or three dollars.

I'm a housekeeper at a hotel. I start work at nine o'clock in the morning, and I work until five o'clock. There are more than 200 rooms in the hotel, and I am in charge of the third floor. My coworker and I work together. We clean 20 to 30 rooms a day. We change about 40 beds. Most people leave a tip of three to five dollars a night.

My name is Ricardo Lopez. I'm the evening manager of the Sunrise Hotel. The Sunrise Hotel is a big hotel with more than 200 rooms. There's a restaurant, a bar, and two swimming pools—one indoor and one outdoor. Many tourists stay here when they visit the city.

The Sunrise has about 100 employees. There are front desk clerks, valets, housekeepers, bellhops, landscapers, and restaurant employees. We have a van driver. He drives guests to and from the airport. And, we have an electrician and a plumber who make repairs. Many people like our restaurant because in the evening, we have a piano player and a singer.

We need people for all three shifts. People who work at night make one dollar more an hour than day employees. Some employees work full time, but we also have many part-time positions.

We are always looking for employees. The Sunrise is a friendly hotel, and it's a nice place to work. Most people like their hours, and the workers like the tips. Are you looking for a job? We have job openings now.

A Pet-Friendly Hotel

If you have a dog or cat and want to travel to California, think about staying at a popular hotel in Coronado, San Diego. This beachfront hotel is one of the most pet-friendly hotels in the United States. The hotel allows guests to bring up to two cats or two dogs for just 100 dollars extra each night.

At the resort, pets enjoy their vacation just as much as their owners. Their vacation starts at reception, where the front desk clerk welcomes them with a special tag, a water bowl, and a treat. There is a special beach for dogs to run and swim. The surf instructor can also take them surfing! In each room, there is a map of dog-friendly walking areas. Owners will also find a special pet menu in their rooms. There is a cook at the resort who makes special dishes just for cats and dogs. Owners can also bring their pets to the hotel restaurant, where the servers provide them with a water bowl.

The hotel can also provide guests with extra services. Pet sitters take care of the cats and dogs if their owners want to spend an evening in the city. Dog walkers walk dogs if guests are tired. Dog groomers wash, shampoo, and cut dogs' hair. When it's time to leave the hotel, housekeepers carefully clean the room for the next guests and their four-legged friends.

Getting a Good Night's Sleep

Try to go to bed and get up at the same time every day—even on the weekends. This helps your body become comfortable with a schedule.

Don't go to bed immediately after using your computer or cellphone. Your mind is still active and busy. The soft light on electronic screens is bad for sleep.

Make your room quiet and comfortable. Turn off the light. When you turn off the light, it tells your body it's time to sleep.

Take a warm shower or bath before you go to bed. This helps your body slow down and relax.

Don't eat late at night. After you eat, your body is busy digesting your food. If you are hungry, eat something light such as a banana or an apple. Do not drink coffee or other drinks with caffeine.

People who exercise during the day sleep better at night. Even a short walk helps you sleep better at night. Don't exercise before you go to bed. But gentle yoga and stretching are fine at any time.
